The background is a blurred image of a library or bookstore with wooden shelves filled with books. In the foreground, a stack of books is shown, with the top one open. Floating around the text are various white mathematical symbols and icons, including plus signs, zeros, question marks, infinity symbols, and a hand holding a pen.

Infatuation

Brutally frank, this story of the 'Number One girl of Bangkok' is daringly different.

Vilai, the White Leopard of the Bolero Dance Hall, was very beautiful . . . and very expensive. She was, too, a liar, greedy, ruthless and crude—but men could not resist her.

To one young Englishman she became an obsession—an obsession that was to bring him moments of ecstasy, weeks of anguish, and to the brink of utter disaster.

Gamekeeper

We worked together on the same country estate.

Dave was not one to back down, if on occasion confrontation was necessary , be it in the woods or at the local pub.

This book however, takes you way beyond that level . A well written and interesting insight into areas of life most of us would never, and would not like, to see. Whether fact or fiction, it's definitely a page turner and keeps you coming back for more.

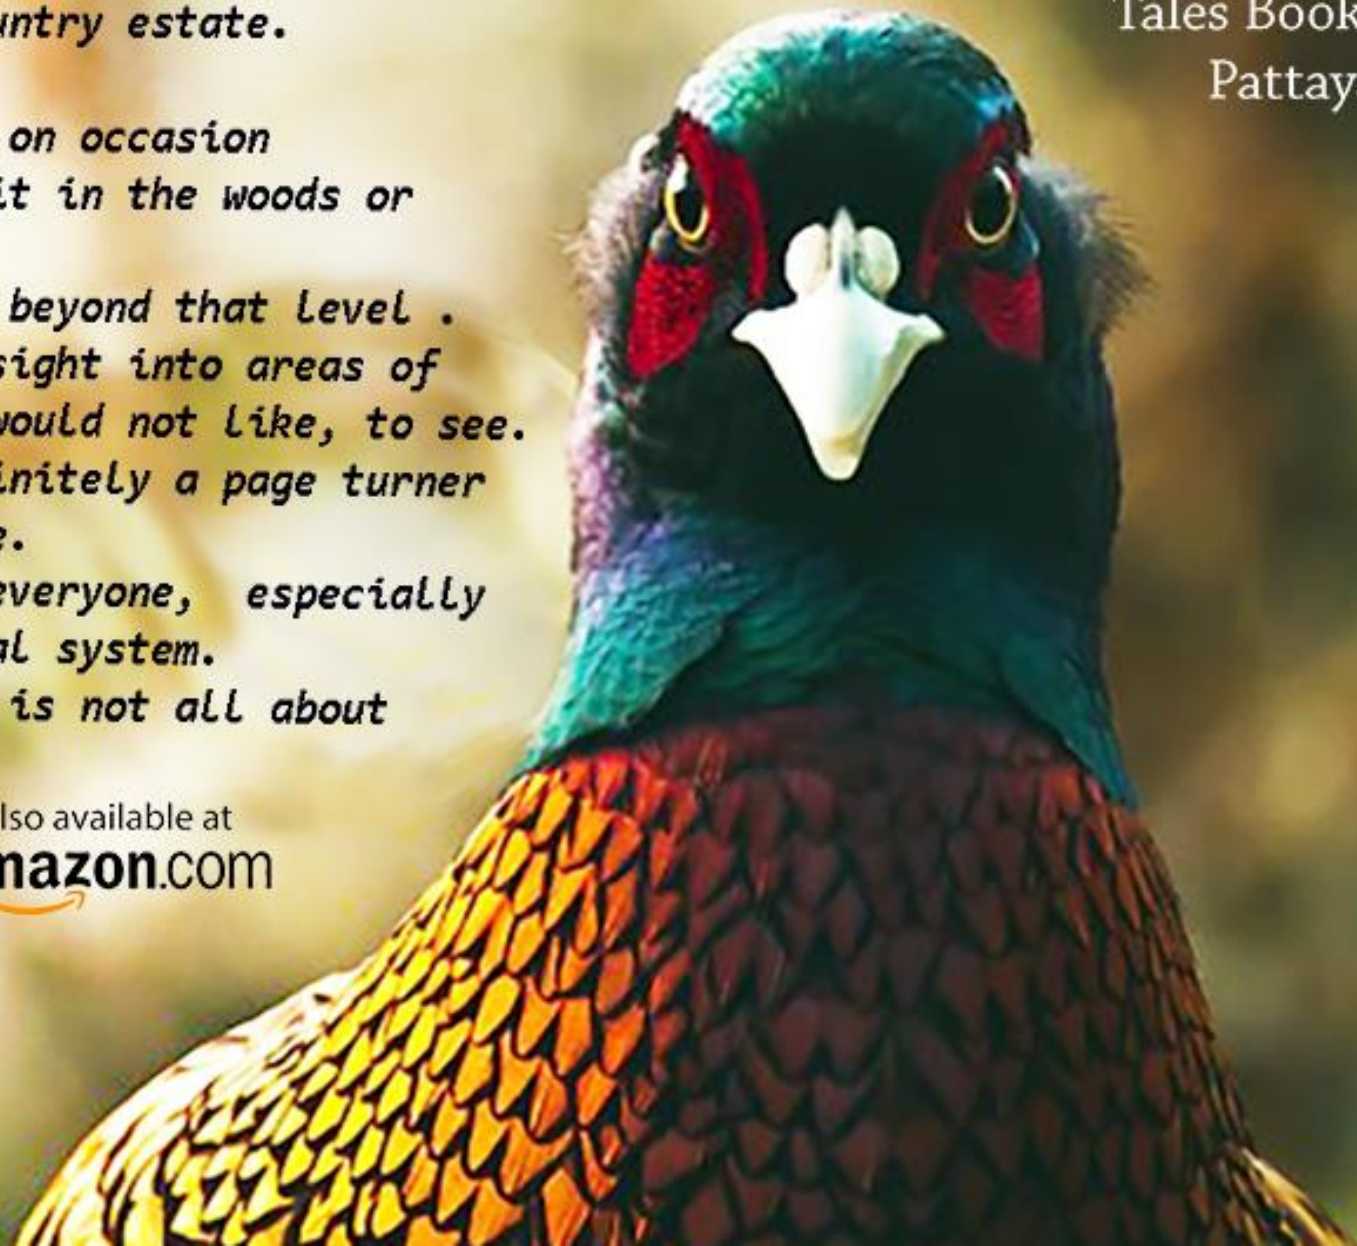

I highly recommend this book for everyone, especially those with interest in the uk penal system.

Don't be fooled by the title, it is not all about pheasants.

Hard hitting and brutal.

Verified Purchase.

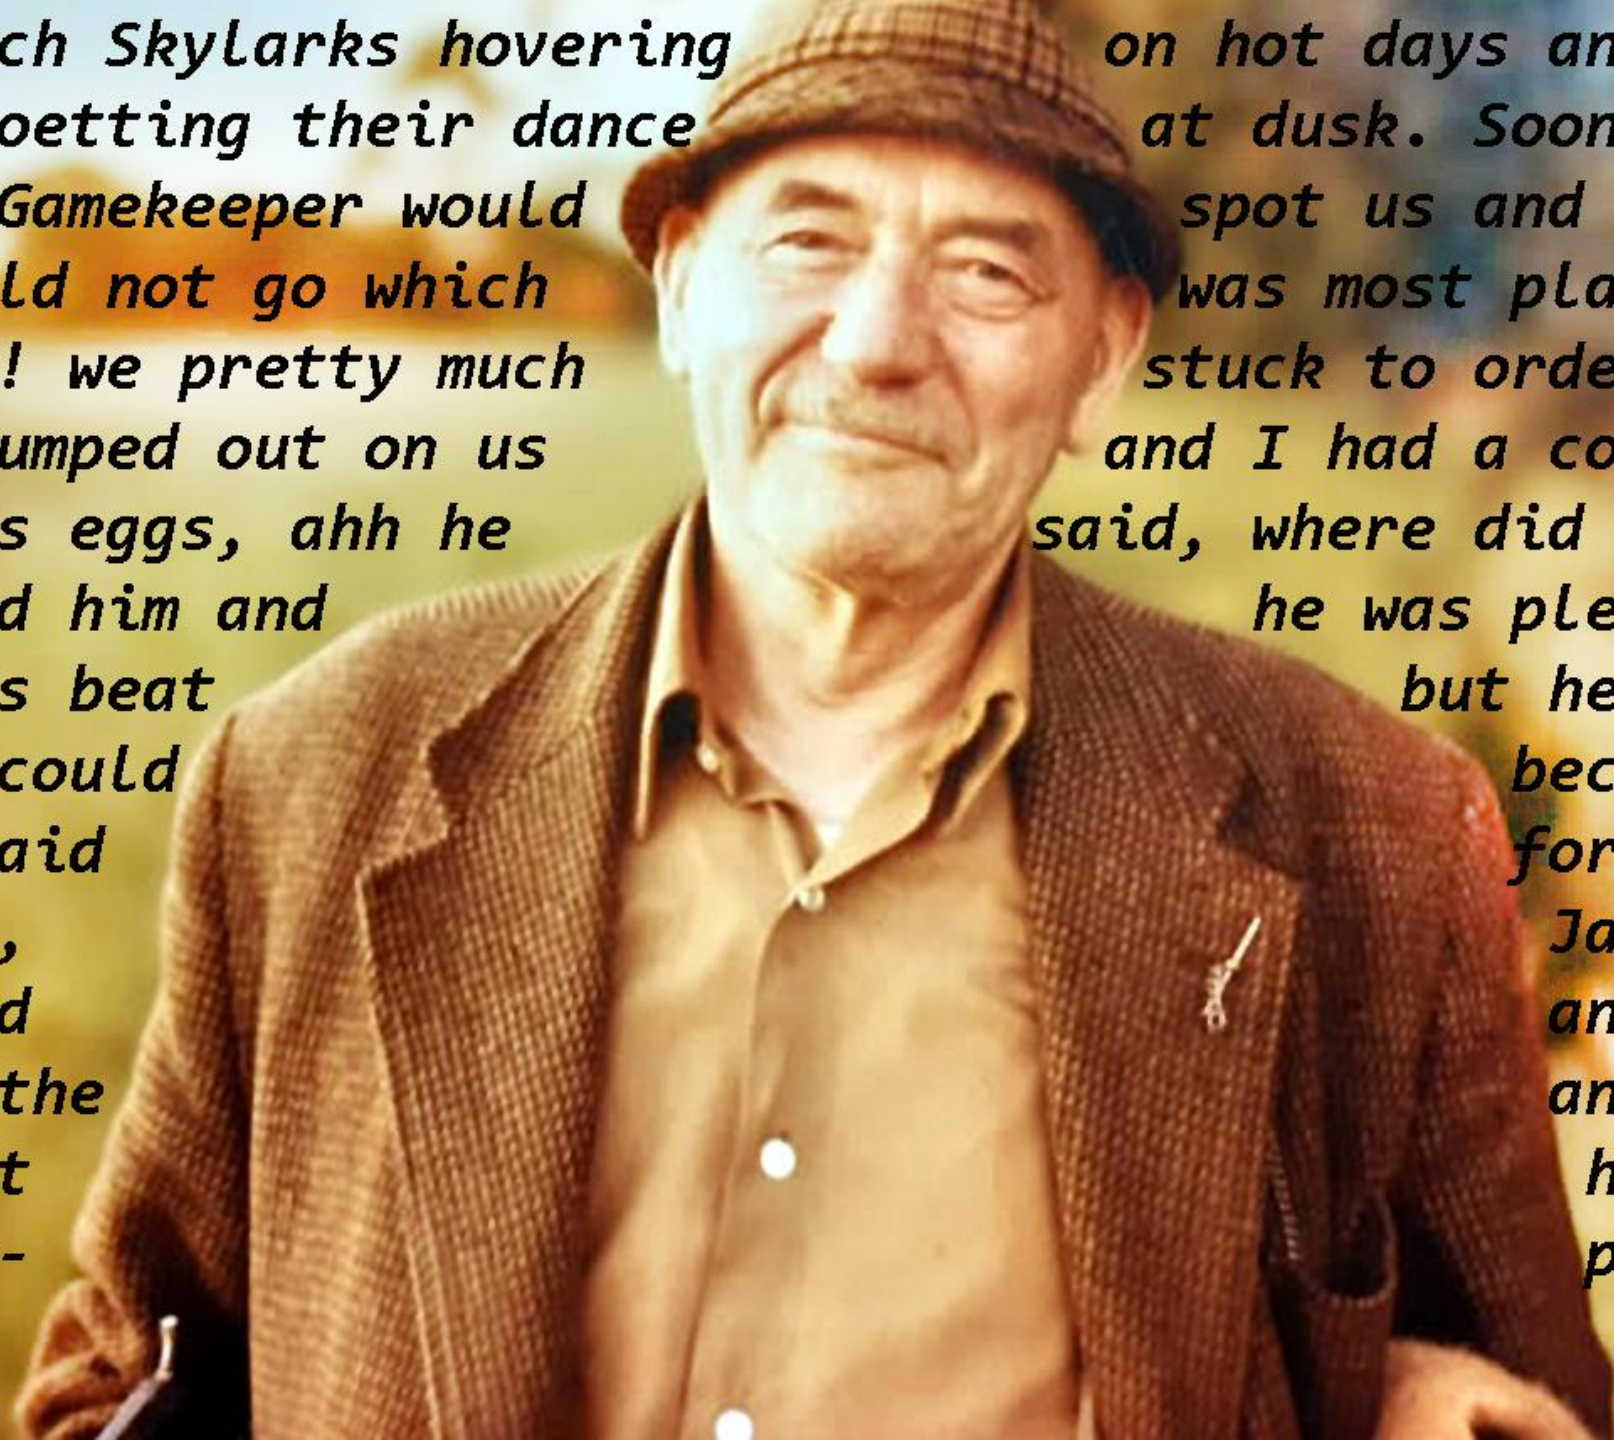

The author has a real affinity with the subject and location, if you're not from Kent (UK) you can almost Google Map your way around the pages. True or not, the brutal detail and realism is gripping and, on some subjects, repulsive!

If Guy Ritchie gets hold of this it would make the "foot soldier" series look like a children's film. A great read, almost believable? ;-)

prisons, he realises that man can be the greatest vermin of all. Disillusioned with how many offenders were getting away with heinous crimes, he decides to mete out justice where the system has failed to do so. He sees killing as justified when the death of the offender means a safer world for children. Will he manage to evade justice himself?

The Gamekeeper

In his seventh decade, David Collier has never given retirement a moment's thought. He still runs a hugely successful bookstore in the beach resort of Pattaya, Thailand. *The Gamekeeper* is the story of his early life where he learned to run with the fox and hunt with the hounds.

He's been both poacher and gamekeeper and seen those operating on both sides of the law, including a life changing period working in some of the toughest prisons in the south of England.

His story is raw and uncompromising, offering insight into the mind of a country boy, coming of age in the 1960s and the troubled souls whose actions land them in jail.

reader review;

Hi Dave,

I've just finished "The Gamekeeper". Yes, I'd read the book review in the Pattaya mail, and your comments, but I was never prepared for what the book contained. I found it fascinating.

From the young boy collecting eggs and learning about the birds; being a gamekeeper (and me thinking I knew about such things, but finding out how little I did know) to the later prison and other episodes - I found very enjoyable. I liked your style of writing too, and the further I got into it, the harder it was to put down.

I said I'd post something on the forum, and I will, but this is just to let you know I think the book is great. Best wishes,

Chris.
