**Karunyawet Home for Persons with Disabilities**

**Bang Lamung Development Center for Older Persons**

**In February, Bertie will be donating to the**

**Anti Trafficking and Child Abuse Center (ATCC)**

# Our Ongoing Projects with The Glory Hut Foundation

The Glory Hut cares for the terminally ill, mostly HIV patients, many of whom are pushed away or neglected by society.

They are doing amazing work, but suffer from a lack of support

**When Bertie first visited the Glory Hut, we found they had no refrigerator for their produce, so we bought them a 3-door commercial cooler.**

# **Our Ongoing Projects with The Glory Hut Foundation**

**We are now committed to improving the lives of the people who live there through a series of monthly donations and upgrades.**

**We have donated a new freezer, a microwave and new gas burners for cooking. We had their pipes and drains cleaned, installed a new water pump and fixed numerous plumbing issues.**

**We had new exhaust fans installed in their kitchen and bathrooms, replaced their circuit breaker and upgraded much of their electricity.**

**We are in the process of having handrails installed throughout the center.**

**Future projects include new TVs, providing internet, further updates to their kitchen and possibly adding solar power.**
