How to Create Cartoon Image ChatGPT

Write an
outline
prompt first

- “write a prompt for LLM to create a cartoon celebration for Thai New Year, incorporating the text Sawadsee Pi Mai, and showing people blessing each other on the hand with water”

Ask AI to Rewrite It For You

Prompt:

- "Create a colorful, whimsical cartoon illustration celebrating Thai New Year (Songkran festival). In the center, show joyful Thai people in traditional festive attire splashing water blessings on each other's hands, with big smiles and laughter. One person pours scented water from a silver bowl onto another's raised palms in the traditional 'rot nam dam hua' blessing ritual.
- Surround them with festive elements like water guns, flower garlands, Buddha images being gently washed, elephants spraying water playfully, and floating lanterns. Prominently incorporate the Thai text 'สวัสดีปีใหม่' (Sawasdee Pee Mai) in bold, golden festive lettering at the top, with English translation 'Happy New Year' below it.
- Use bright tropical colors like turquoise, pink, yellow, and orange, in a fun 2D cartoon style like Pixar or Thai animation, with exaggerated expressions, dynamic water splashes, and a sunny Bangkok street background full of celebration."

The image shows a laptop screen with a software interface. The interface has a header with a grid icon and the text "Agent mode". Below the header is a text input field containing the prompt: "Run a full analysis on this dataset. I want to understand some important insights to help me make decisions about my business. Make it visual!". To the right of the input field is a circular button with a right-pointing arrow. Below the input field is a small warning text: "AI-generated content may be incorrect". The background of the screen shows a blurred spreadsheet with columns and rows of data.

Agent mode

Run a full analysis on this dataset. I want to understand some important insights to help me make decisions about my business. Make it visual!

Office Agent Frontier: AI-Powered Enterprise Support

Next-generation productivity where humans and AI agents collaborate seamlessly.

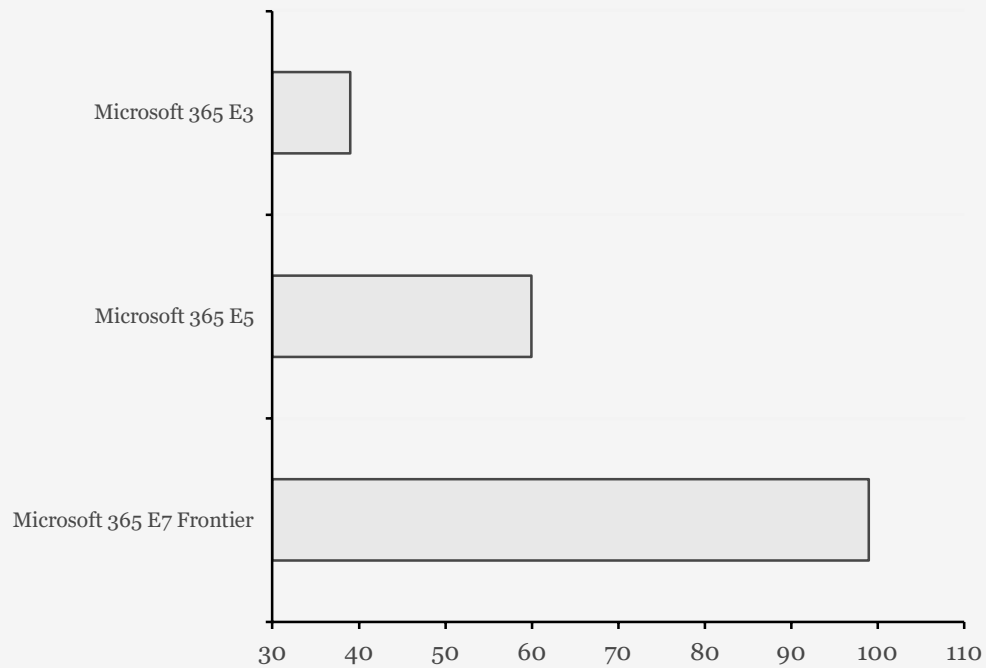

What is Office Agent Frontier?

Microsoft's comprehensive AI platform that enables early access to experimental AI features and agents as part of the Microsoft 365 E7 Frontier Suite.

-  Early access to experimental AI features before general availability
-  Enhanced agentic experiences in Office apps (Word, Excel, PowerPoint, Outlook)
-  Model-diverse AI support including OpenAI and Anthropic Claude models
-  Work IQ organizational intelligence layer for better AI context

Pricing & Plans

Bundle Value Analysis

E7 Frontier Suite at \$99/month includes E5 (\$60) + Copilot + Entra Suite + Agent 365 platform.

Bundle saves \$18/month (15% discount) versus purchasing components separately at \$117 total.

Promotional CSP discounts offer additional 10-15% savings through December 31, 2026.

Available through Enterprise Agreement, CSP, and Microsoft Customer Agreement channels.

Available Agents & Features

App Builder

Build dashboards and calculators using natural language commands

Workflows Agent

Automate tasks across Outlook, Teams, and SharePoint platforms

Skills Agent

Map and analyze organizational skills and capabilities

Researcher Agent

Access gated sources and conduct research in secure VM environment

Office Agent

Coordinate actions across multiple Office applications seamlessly

Copilot Studio

Create and customize your own AI agents for specific business needs
